

# Reviewer Expression of Interest Form

---

## Overview

ResearchNB is committed to continuous improvement and ensuring researchers receive valuable feedback as part of their application experience. Reviewers play an instrumental role in ensuring that meritorious applications are recognized and in shaping research outcomes across the province.

ResearchNB's core funding programs are divided into three pillars — talent, infrastructure, and ideas — and span five priority sectors (health, energy, oceans, forestry, and agriculture) as well as three enabling sectors (data and AI, information and communications technology, and advanced manufacturing). Individuals with strong sector knowledge and professional experience are needed to appropriately assess applications across the funding pillars.

All potential reviewers are vetted to ensure credentials meet our review requirements. Once reviewers are added to our review list, they receive a brief onboarding and are called on when an application in their area of expertise is received. ResearchNB will contact reviewers to confirm availability to review and will provide a 1:1 orientation on both the funding program and training with our grant management software if required. All ResearchNB applications are reviewed using SurveyMonkey Apply, an application management software. Please note that while ResearchNB will receive over 300 applications for funding per year, we may not receive an application in an area of expertise every year. ResearchNB contacts reviewers annually to confirm their willingness to remain on our review list.

Please email the completed form along with your CV to [researchservices@researchnb.ca](mailto:researchservices@researchnb.ca), with the subject line "ResearchNB Reviewer Application."

# Reviewer Expression of Interest Form

## Basic Information

First name: \_\_\_\_\_

Last name: \_\_\_\_\_

Email address: \_\_\_\_\_

Highest level of degree(s), (please specify major/minor): \_\_\_\_\_

Current role/title: \_\_\_\_\_

Organization: \_\_\_\_\_

Language skills \_\_\_\_\_

Language	Reading	Writing	Speaking	Comprehension
English				
French				

Language of correspondence:      English                  French

## Area of Expertise

Preferred priority and/or enabling sector(s):

- Health                  Energy                  Oceans                  Forestry                  Agriculture
- Data and AI                  Information & Communications Technology                  Advanced Manufacturing

Area of expertise: \_\_\_\_\_

## Funding Pillar

Preferred funding pillar:                  Talent                  Infrastructure                  Ideas

## Review Experience

Have you reviewed any federal grants within the past year? If so, please describe. (Answering “No” will not affect your eligibility to review for ResearchNB.)
